

The School Nutrition Foundation continues its fundraising efforts for the **Help Feed School Kids Now!** Emergency Feeding Relief Fund. <https://www.gofundme.com/f/help-feed-school-kids-now>

When the next round of applications open, SNF will post this notice on its website and social media. In the meantime, there are other possible grant opportunities for which districts and community partners can seek funding. SNF has compiled a list that may assist you in your search. Some of these are unique to communities and states and some are on the national level and have been providing grants since schools have been closed. SNF will update this list on its website when it learns of new grant opportunities.
